International Journal of Industrial Ergonomics, 12 (1993) 321–322
Elsevier

Contents volume 12

Volume 12, Nos. 1–2 (August 1993)

Special issue: 'PREMUS-92', edited by Göran M. Hägg

G.M. Hägg
Editorial 1
G.H. Schierhout, J.E. Myers and R.S. Bridger
Musculoskeletal pain and workplace ergonomic stressors in manufacturing industry in South Africa 3
A.J. van der Beek, M.H.W. Frings-Dresen, F.J.H. van Dijk, H.C.G. Kemper and T.F. Meijman
Loading and unloading by lorry drivers and musculoskeletal complaints 13
G. Wickström, K. Hyytiäinen, M. Laine, J. Pentti and R. Selonen
A five-year intervention study to reduce low back disorders in the metal industry 25
J.Å. Johansson, R. Kadefors, S. Rubenowitz, U. Klingenstierna, I. Lindström, T. Engström and M. Johansson
Musculoskeletal symptoms, ergonomic aspects and psychosocial factors in two different truck assembly concepts 35
R. Blüthner, B. Hinz, G. Menzel and H. Seidel
Back muscle response to transient whole-body vibration 49
B.-O. Wikström
Effects from twisted postures and whole-body vibration during driving 61
G. Caffier, D. Heinecke and R. Hinterthan
Surface EMG and load level during long-lasting static contractions of low intensity 77
E.-P. Takala, S. Lammi, H. Nieminen and E. Viikari-Juntura
Electromyographic changes in the static holding test of the arm 85
M. Graf, U. Guggenbühl and H. Krueger
Investigations on the effects of seat shape and slope on posture, comfort and back muscle activity 91
S.S. Ulin, T.J. Armstrong, S.H. Snook and W. Monroe-Keyserling
Examination of the effect of tool mass and work postures on perceived exertion for a screw driving task 105
L. Lindbeck and I.-L. Engkvist
Biomechanical analysis of two patient handling tasks 117
H. Founooni-Fard and A. Mital
A psychophysiological study of high and very high frequency manual materials handling: Part I – Lifting and lowering . . 127
H. Founooni-Fard and A. Mital
A psychophysiological study of high and very high frequency manual materials handling: Part II – Carrying and turning . 143
S. Kumar, A. Mital, D. Garand and A. Persad
Operator stress in palletizing tasks with restricted access and headroom 153

News 163

Volume 12, No. 3 (October 1993)

K.B. Hagen
Longer lifting hooks for forestry workers: An evaluation of ergonomic effects 165
P.S. Adams and W.M. Keyserling
Three methods for measuring range of motion while wearing protective clothing: A comparative study 177
P.S. Ray, J.L. Purswell and D. Bowen
Behavioral safety program: Creating a new corporate culture 193
K.A. Grant and D.J. Habes
Effectiveness of a handle flange for reducing manual effort during hand tool use 199
C.-H. Kim and J.E. Fernandez
Psychophysical frequency for a drilling task 209
J.B. Dahalan and J.E. Fernandez
Psychophysical frequency for a gripping task 219

M. Schmauder, R. Eckert and R. Schindhelm
Forces in the hand-arm system: Investigations of the problem of left-handedness 231

News 239

Volume 12, No. 4 (December 1993)

M.S. Oxenburgh and H.H. Guldberg
The economic and health effects on introducing a safe manual handling code of practice 241
N.A. Davidoff and A. Freivalds
A graphic model of the human hand using CATIA 255
N.B. Stubbs, J.E. Fernandez and W.M. Glenn
Normative data on joint ranges of motion of 25- to 54-year-old males 265
K.R. Laughery and K.P. Vaubel
Major and minor injuries at work: Are the circumstances similar or different? 273
S.N. Imrhan, M.-T. Nguyen and N.-N. Nguyen
Hand anthropometry of Americans of Vietnamese origin 281
D. Gagnon and M. Gagnon
The role of general motion principles in asymmetrical lifting 289

Case studies
E. Menckel, N. Carter and M. Hellbom
The long-term effects of two group routines on accident prevention activities and accident statistics 301
N. Nevala-Puranen, K. Taattola and J.M. Venäläinen
Rail system decreases physical strain in milking 311
